Dear New Harvard Student:

It is my pleasure to welcome you to Harvard University Health Services (HUHS). Good health is of the utmost importance in maintaining good academic standing and quality of life, and we strive to support you in all aspects of your health during your time at Harvard. All Harvard Students have access to HUHS and we encourage you to visit the HUHS website to learn more about the wide range of services we offer, including:

- Primary care
- Medical and surgical specialties
- Mental health
- Urgent care

Massachusetts has strict immunization requirements that you must meet in order to register for classes. Immunizations help protect you from illnesses and contribute to the overall well being of our community. **We encourage you to receive any required immunizations before you arrive at Harvard, as many private health plans will cover the cost.** If you are unable to obtain these prior to your arrival on campus, you may arrange to get immunizations at various locations in the area, including HUHS. Please note that your health plan may not cover immunizations you receive at HUHS, in which case you will be responsible for the cost of the immunizations.

Please visit huhs.harvard.edu to download the medical forms that you must complete and submit by June 15, 2015.

We hope that you come to see Harvard University Heath Services as your wellness center, and a place to visit when you need care.

Wishing you the best of health,

Paul J. Barreira, M.D.
Director
Harvard University Health Services

**IMPORTANT DATES**

Student Health Insurance Plan waiver deadline: **July 31, 2015**
Required immunization and medical forms due: **June 15, 2015**
**REQUIRED STUDENT HEALTH INSURANCE**

**hushp.harvard.edu**

- Massachusetts law requires that all registered students have adequate health insurance coverage. The Harvard University Student Health Program (HUSHP) meets both this requirement and the requirements of the Affordable Care Act. All Harvard University students are automatically enrolled in and charged for HUSHP.

- Students with comparable health insurance may be eligible to waive the Student Health Insurance Plan portion of the program. The online waiver will be available May 1, 2015.

- **Waivers must be completed online at hushp.harvard.edu prior to the July 31, 2015 deadline, or the charges will remain on your bill. Even if you waive the Student Health Insurance Plan, you will still have access to Harvard University Health Services through the Student Health Fee.**

---

**REQUIRED IMMUNIZATION AND MEDICAL FORMS DUE BY JUNE 15, 2015**

Time-sensitive forms and information can be found at [huh.s.harvard.edu](http://huh.s.harvard.edu). Compliance with Massachusetts immunization regulations is a registration requirement. To register for the 2015-2016 academic year, you must provide a complete immunization history, including three Hepatitis B (Hep B), two Measles, Mumps and Rubella (MMR), two Varicella, one Tetanus, Diphtheria and Acellular Pertussis (Tdap), and one Meningococcal immunization. See forms for specific requirements. Mail or deliver the forms to the address indicated on the form by **June 15, 2015**.

**NOTE:** Measles, Mumps and Rubella (MMR) immunizations require a series of two injections at least 30 days apart. Hepatitis B immunizations require a series of three injections over a six-month period according to the Massachusetts schedule: 30 days between the first and second dose; the third dose must be at least two months (56 days) after the second dose, and at least four months after the first dose. Varicella immunizations require a series of two injections at least 30 days apart. *New students who are not yet immunized against MMR, Hepatitis B, or Varicella are expected to complete at least one injection prior to registration.*

Please contact your school representative with any questions or to request printed forms.
